Celebrating 40 Years of KNLS!

Bring a group to WCB for Lunch!

Happy 40th Anniversary KNLS

From the desk of Andy Baker:

July 23, 1983 is a special date for the entire World Christian Broadcasting family. Broadcasting began in Anchor Point, Alaska on this date almost 40 years ago. As we look back

on our history, view our present opportunities, and with enthusiasm think about the new avenues we will be able to use to reach more people with the gospel, we celebrate all that the Lord has done and will be doing through this ministry. In my first article celebrating our 40th year anniversary, I talked about visiting with the Cuyahoga Falls Church of Christ, the home for many of our staff where programs were produced for several years.

In September, I was blessed to visit with the Greater Abilene Kiwanis Club in Abilene, TX. Our founder, Lowell Perry, was a member of that club. Their Kiwanian of the Year award is named for Lowell Perry. I have been blessed over the last several years to be a part of that presentation. They honor Lowell at that special meeting and talk of the great teacher, friend, husband, father, and Christian that he was. With his living room in Abilene being the place where the board was formed and where prayers and dreams were shared, the award with his Kiwanis Club is very special and a part of our celebration of 40 years.

I recently spoke at two Mississippi congregations who spoke of their love and appreciation of Roy Sawyer and Jerry Denman. As I travel, I still meet people who knew Brother Maurice Hall. The members of our staff and board of directors through the years are too numerous to mention. Many names would be left out. For 40 years we have done shortwave broadcasts and we have done it well. We are highly respected among the short wave industry world. It is thanks to Kevin Chambers, Dale Ward, and the staff through the years that have prepared excellent broadcasts.

Happy 40th Anniversary KNLS! What a past! What a future!

2022 HIGHLIGHTS FROM OUR SE

English: Rob Scobey

- 106,092 Facebook Reaches
- New WCB Website
- 59,721 Page Views Since August
- 12,000+ Facebook Interactions
- 150 Attendees of Listeners Club (India)

Spanish: José Castillo

- New App Launched in May
- 10,321 App Impressions
- 850 App Openings
- 197 Downloads
- 1 Personal Bible Study in Cuba

Each of these numbers represents a soul that has been touched by the word of God through World Christian Broadcasting. Many of them have heard about the one true living God for the very first time. Your generosity has made this possible. Please pray for all our listeners throughout the world as we continue to plant seeds of hope!

- 35,960 Website Hits
- 882 Listener Contacts
- 33 QSL Cards
- 46 Personal Bible Studies

Korean Programing to Begin January 2023

The uniqueness of World Christian Broadcasting is focused on places where our missionaries cannot go or where we do not have enough workers. In 2006, we began building the radio station in Madagascar to reach the Middle East with the gospel. That antenna blankets Africa, South America, the Middle East, the western part of Russia and China, India, Cuba, and every corner of the world. Those 3 antennas have introduced Jesus to millions of people. So, what is next? North Korea! Sang Yang, who lives in South Korea, and his team have joined World Christian Broadcasting and will be sending out Korean broadcasts into North and South Korea. He has preached and been involved in radio work for many years. He and his team are getting programs ready now to send out to the world. In North Korea, we will use the “invisible tool” of shortwave radio that cannot be traced. It may be one of the safest ways to teach people about Jesus. We can drop a strong signal on top of North Korea from KNLS in Anchor Point, AK. Websites and Bible Correspondence Courses are available. In the picture is Sang Yang, our voice into North Korea, and Bill Ramsey from Murfreesboro, TN who has been involved with a Korean Bible Correspondence and worked with Sang for several years. Please be prayerful about this opportunity.

Andy

What Countries Stir Your Heart? (We would love to hear from you)

Our entire staff has been busy thinking about the future and what we want our broadcasts to look like as we move forward. Each area of our ministry is focused on a Five-Year Plan, and how each language service, the radio stations in Alaska and Madagascar, and the support teams in Dallas and Franklin can be the most effective. Websites are exploding with contacts, two of our language services have developed an App so many are listening on their mobile devices and many of our broadcasts are being streamed 24/7. The Chinese Bible has been recorded and is available to listeners all over the world. We will not have to build additional antennas. We will just be adding languages. We broadcast in 7 languages and the 8th one will begin in 2023.

**What language should be next?
What country stirs your heart?
We would love to hear from you!**
